Category 6
Patch panel

STERLING

CAT6

Sterling 6 patch panels exceed the performance criteria for category 6 as specified by TIA / EIA 568B 2.1 guaranteeing performance at 250MHz.

The panels utilise a rear cable management bar facilitating neat, professional and well managed cable routing.

When used in conjunction with Sterling 6 modules and cable, the user will achieve both Channel and Link category 6 performance.

Features

- Exceeds performance requirements for TIA/EIA 568B 2.1 Cat 6
- Component compliant
- Ideal for Gigabit ethernet applications
- 568A and 568B wiring
- Rear cable management bar
- 25 year product / system warranty
- Krone / 110 termination blocks

Product specifications

Width :	19 inch
Height :	24w-1u 48w-2u
Depth :	38mm
Material :	High impact / flame retardant plastic UL94V0
Finish :	Black powder coat finish
Termination :	568A / 568B
Labels :	50u gold Cat 6 socket - up to 750 mating cycles
Sockets :	4 way Krone / 110

Ordering information

24 port Sterling 6 panel :	C6 - UTP - PP24
48 port sterling 6 panel :	C6 - UTP - PP48
